Nourishes, hydrates, rejuvenates and protects	
Peptide Anti-Wrinkle and Repair Complex™	21
Regenerative collagen booster	
Wrinkle Eraser™	22
Instant wrinkle reduction	

ANTI-AGING, INSIDE AND OUT:

Dermaceutical oral supplements *-to grow a youthful skin from within™*

Wrinkles, age spots and damaged skin cells develop deep within the skin, and then slowly grow to the surface. Therefore, for a youthful and less wrinkled skin, it is important to supply these deeper layers with collagen boosting and cell strengthening dermaceuticals (skin nutrients), so that cellular damage doesn't occur in the first place. However, topical cosmetic creams are not able to penetrate to these deep levels. Furthermore, even if creams were able to penetrate deep enough, it is physically impossible for a cream to contain enough of the many dermaceutical nutrients needed, in effective doses. This can only be achieved by supplying dermaceutical nutrients orally, which nourish and protect the skin, from within. Oral dermaceuticals also reach collagen and elastin skin fibres more easily, thereby treating the origin of aging, rather than merely hiding the damage with a cosmetic.

Topical creams and serums *-anti-aging medicine for the skin™*

SOLAL Technologies topical creams and serums range does more than superficially reverse the visible signs of aging. These products also reverse the underlying causes of skin aging, regenerating the skin's structural collagen-matrix and stimulating new skin growth, resulting in a youthful and healthier skin. This is achieved with cutting-edge combinations of peptides, collagen stimulators and anti-oxidants, at therapeutic doses proven to be effective.

New: Beauty Shake

A superfood for complete skin, hair and nail nutrition -for anti-aging rejuvenation from within

Beauty Shake

Regenerates collagen and elastin skin fibres, to restore youthful texture, elasticity and thickness to the skin, hair and nails

Sugar Free • Low Fat • Low Carb • Low GI • Low Calorie • High Protein

Beauty Benefits

- **Whey Protein** –to nourish and heal skin
- **Silicon amino acid chelate** –to strengthen and firm skin, hair and nails
- **Collagen peptides** –for youthful cell growth and skin rejuvenation
- **MSM (sulphur)** –for hair flexibility and skin elasticity
- **Omega 3 essential fatty acids** –for hydration and volume of skin and hair
- **Colostrum** –to accelerate growth and healing, and to boost skin immunity
- **Biotin** –for skin structure, and for hair and nail strength
- **Added vitamins and probiotics** –to reduce inflamed and irritated skin

A superfood for complete skin, hair and nail nutrition, from within. SOLAL Beauty Shake contains super nutrients such as whey protein, omega 3 marine extracts, flaxseed, vitamins, probiotics, colostrum and collagen peptides. These nourish the skin, and boost collagen and elastin, from within the body, ensuring healthy new skin growth, thereby revitalising the skin, improving elasticity, and helping to reverse existing damage caused by aging. SOLAL Beauty Shake also supplies keratin-boosting silicon, biotin and MSM (sulphur), which promote strong and flexible hair and nail growth.

Additional Health Benefits

- **High protein:** 60% pure protein content –for healthy metabolism, brain function, body tone and performance.
- **Low fat – Low Carb – Low GI:** Only 3.3g of fat and less than 5g of low glycaemic index carbohydrates per serving –for healthy weight control and sustained energy levels.
- **Undenatured cold processed whey protein:** With intact immunoglobulins - for healthy immune function and recovery from illness.
- **Added omega 3 essential fatty acids:** From fish and flaxseed oil –for heart health and improved brain function.
- **Probiotics and prebiotics:** 3 billion probiotics per serving, with prebiotic fibre –for a healthy immune system and digestive tract.
- **High fibre:** 5g of soluble and insoluble fibre per serving –for healthy digestion, cholesterol and blood-sugar control.
- **12 added essential vitamins:** Providing 100% RDA per serving –for a healthy body and brain.
- **Sugar-free:** Naturally sweetened with Stevia herb only –no aspartame, sugar or artificial sweeteners.

Directions For Use

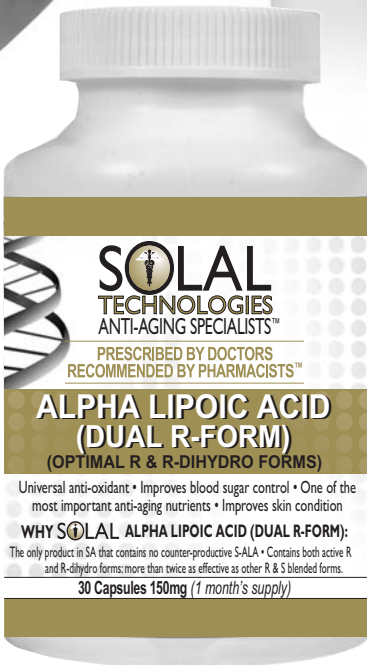

Take one serving every 2 to 3 days. Add 2 level scoops (40g) to approximately 200ml of milk (skim, low fat or full cream) or water, and mix well. More or less milk or water can be added, according to personal taste. For best results use a blender or shaker. For a thicker and ice-cold drink, add a few ice cubes before blending or shaking. For variety and additional health benefits, add a few pieces of fresh fruit before blending. Can also be added to yoghurt, fruit juices, smoothies, breakfast cereals or jellies, to boost nutritional value.

Dermaceutical oral supplements -to grow a youthful skin from within™

Alpha Lipoic Acid (Dual R-Form)

Reduces wrinkles and age-spots

- Helps reduce fine lines and wrinkles
- Protects the skin due to strong anti-oxidant effects
- Reduces enlarged pores, surface imperfections and age-spots
- Improves skin strength and texture

R-alpha-lipoic acid boosts cellular energy production. The higher the energy levels in our cells, the more youthful they remain. Unlike other alpha lipoic acid products, which contain the less effective S-form of alpha lipoic acid, this product contains only the potent and effective R-forms, which are immediately available to all the cells of the body.

Directions For Use

Take 1 capsule daily, with or shortly after a meal.

Dermaceutical oral supplements

-to grow a youthful skin from within™

DMAE

Reduces wrinkles and slows down facial and body sagging

- Reduces sagging of the face and body
- Protects skin-cell membranes against damage caused by free radicals
- Improves clarity of thought and memory

DMAE (dimethylaminoethanol) is a naturally occurring vitamin-like nutrient, with powerful anti-aging properties. As we age, reduced skin tone becomes more visible. One of the main reasons for this is a decrease in muscle tone caused by a decline in a neurotransmitter called acetylcholine, which is responsible for muscle contraction (as well as brain function). Therefore, instead of remaining toned through regular contractions, the muscles become relaxed, resulting in skin sagging of the face and body. Optimal levels of DMAE are a key part of a successful anti-aging program, to improve both memory and brain power, while also reintroducing muscle tone to the skin of your face and body.

Directions For Use

Take 1-2 tablets twice daily, on an empty stomach.

Dermaceutical oral supplements -to grow a youthful skin from within™

MSM

Improves skin, hair and nail condition

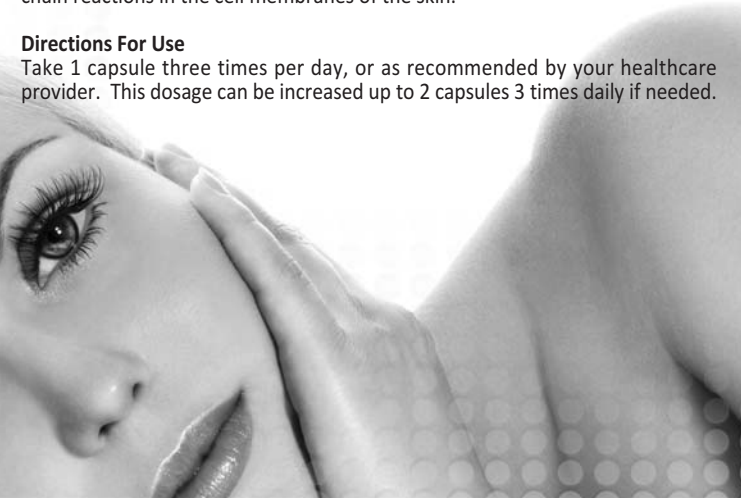

- Boosts skin-collagen, thereby helping to slow wrinkle formation and reduce sagging of the skin
- Provides natural sulphur for hair and nail growth
- Research also suggests that MSM may reduce acne and skin problems

MSM is a natural form of organic sulphur that is found in the fluid of all living organisms. The sulphur normally provided to the body by MSM is required for healthy collagen and keratin, which are essential for healthy hair, skin and nails. MSM also has anti-oxidant benefits which can disrupt or alter damaging oxidation chain reactions in the cell membranes of the skin.

Directions For Use

Take 1 capsule three times per day, or as recommended by your healthcare provider. This dosage can be increased up to 2 capsules 3 times daily if needed.

Dermaceutical oral supplements

-to grow a youthful skin from within™

Omega-Derm™

Food for the skin

- Essential omega 3 fatty acids (EPA and DHA)
- Nourishes, hydrates and protects

Omega-Derm™ is rich in two omega 3 fats, EPA and DHA - the most important nutrients for skin health. Unlike topical creams which work on the surface of the skin, Omega-Derm™ supplies essential structural skin components from the inside, where they are necessary for skin-cell formation and growth. The result is a stronger, healthier, more hydrated and younger looking skin. Each dose of two Omega-Derm™ capsules supplies 1500mg of pure EPA/DHA, more than double the amount of most other products.

Directions For Use

Take 2-3 capsules once daily, with or shortly after the main meal of the day.

Dermaceutical oral supplements -to grow a youthful skin from within™

Skin Damage Control™

Protects collagen and slows wrinkle formation

- Protects against photo-aging (aging caused by UV-radiation), the main cause of damage to skin-collagen that results in wrinkles and accelerated skin aging.
- Only an oral formulation can protect the deeper skin layers where wrinkles begin, unlike topical sun-screens.

UV radiation from sunlight is the main cause of premature wrinkles and accelerated skin aging (known as photo-aging). Even indirect sun exposure and reflected light, for a few minutes daily, can cause damage, because photo-aging occurs at UV exposure levels a lot lower than those required to redden, burn or even tan the skin. In fact, photo-aging is usually symptom-free and occurs when high-energy UV-rays cause inflammation and damage to collagen and elastin fibres, the connective tissues that maintain youthful skin structure. Skin Damage Control™ contains a herbal extract called Polypodium leucotomos, which neutralises most high energy UV-rays, as soon as they enter the skin, before they can cause damage. The result is a reduction in collagen damage and associated photo-aging and wrinkle formation. Unlike topical UV-protectors, because Skin Damage Control™ is taken orally, it is effective at protecting cells deep within the skin. Damage to these deeper cells is responsible for most of the signs of photo-aging, such as wrinkles. In addition, research shows that Polypodium leucotomos contains skin-specific anti-oxidants that help protect skin-cell DNA from UV-damage that causes skin cancer. It has also been used for psoriasis, eczema and vitiligo (irregular pale skin pigmentation patches).

Directions For Use

Take 1 capsule daily. Two (2) capsules can be taken when a greater amount of sun exposure is expected. Skin Damage Control™ can be taken with or without a meal. Peak protective effects are reached 1-2 hours after taking and last for approximately 8 hours. For optimal benefit, Skin Damage Control™ should be used continuously, every day, since levels gradually build up to effective concentrations over time. It is not as effective if used occasionally.

NOTE: Skin Damage control™ is not a sunscreen and therefore should be used in addition to a topical sun protection screen or lotion.

Dermaceutical oral supplements

-to grow a youthful skin from within™

Tan Enhancer

Promotes a natural, long-lasting tan

- Helps protect against burning and UV damage

Tan Enhancer contains canthaxanthin, a skin-protecting anti-oxidant found in some fruits and vegetables. After four weeks of use, canthaxanthin dissolves in the fat layer directly under the skin, where it helps protect against UV damage. When used in conjunction with UV-based tanning (either under the sun, or using a sun-bed), canthaxanthin delays burning, helps protect from UV damage and promotes a long-lasting natural tan. Canthaxanthin may also slow down the formation of UV-induced skin damage such as wrinkles, and reduces the visibility of fine lines.

Directions For Use

Loading phase: Take 2 capsules daily, with or shortly after a meal, for the first week.

Maintenance phase: Once the loading phase is complete, drop to 1 capsule daily or 1 every second day (if a tan colour develops on the palms of the hands, this is a sign of the dosage being too high). It takes 4 weeks to become effective, so Tan Enhancer should be started before the tanning season, and continued throughout the summer months, or sun-bed sessions.

Tan Enhancer does not give effective results unless combined with UV-based tanning (natural sun or sun-bed).

Dermaceutical oral supplements

-to grow a youthful skin from within™

Vitamin A

The most important vitamin for skin health

- Essential for new tissue growth and DNA repair
- Effective 10 000IU (3000µg-RE) per tablet

Vitamin A is essential for the eyes, skin, throat, sinuses and a healthy immune system. Vitamin A acts as an anti-oxidant to neutralise toxins in the skin, helping to prevent wrinkles, resist infection, boils and acne. In fact, vitamin A is the most important vitamin for maintaining a youthful skin. It is a powerful anti-oxidant that helps protect against pollution, cancer formation and other diseases. Vitamin A also has powerful anti-aging effects, not only for the skin, but also for every tissue and organ in the body.

Directions For Use

Take 1 tablet daily after a meal. Some experts believe that the optimal dose of vitamin A is 20 000 – 40 000 IU per day (especially for skin benefits), however side-effects are more likely at doses above 20 000IU. Therefore, only use higher doses if under the supervision of a healthcare professional.

Topical creams and serums

- anti-aging medicine for the skin™

How to use SOLAL Creams and Serums:

Each product can be used on its own twice daily.
Ideally however, the entire range could be combined.

If products are combined then it is not necessary
to use each of them **twice** daily.

Here is the ideal SOLAL anti-aging topical cream and serum protocol:

Mornings (apply in the following order):

- Anti-Aging Eye Lift Serum™
- Peptide Anti-Wrinkle and Repair Complex™
- Super Rejuvenation Or Advanced Rejuvenation
- C-Ester Serum™

At bedtime (apply in the following order):

- Anti-Aging Eye Lift Serum™
- Mature Skin Rejuvenator™ (Only use if over the age of 45 – women only) (If not over 45, use C-Ester Serum™)
- Idebenone Wrinkle Reverser™
- True Nourishment

If Wrinkle Eraser™ is used, it should be the last application before other make-up is applied.

It is recommended that first-time users apply a small amount on a test area, and monitor over a 24-hour period.

SOLAL creams and serums contain no unhealthy components, such as paraffin, mineral oil, propylene glycol, sodium lauryl (laureth) sulphate, paraben preservatives or isopropyl myristate.

New packaging for
topical creams and serums
Available late 2009 ►

Topical creams and serums

- anti-aging medicine for the skin™

3% Alpha Lipoic Acid Complex (Super Rejuvenation)

Facial repairing cream

Contains 3% alpha lipoic acid complex
-with Lipomal™

- Reverses wrinkles and fine lines
- Reduces puffiness around the eyes

3%-milder strength for more sensitive skins

Clinical studies show that alpha lipoic acid reduces mild-to-moderate wrinkles by up to 50%, whereas fine lines almost disappear completely. In another study, alpha lipoic acid significantly improved the appearance of certain types of scars. Alpha lipoic acid also reduces oedema (puffiness) around the eyes. The appearance of the skin can take on a healthy glow after 3-4 days of use. After a few weeks, fine lines (wrinkles) should begin to diminish. Lipomal™ is a unique water-soluble form of alpha lipoic acid that improves skin penetration and delivery. Also available in a concentrated 5% strength (Advanced Rejuvenation), for non-sensitive skins.

Directions For Use

Apply to the face in the morning or evening as a repair cream prior to your normal moisturising routine.

NOTE: Due to the high potency of this formulation, skin irritation may occur. It is recommended that first-time users apply a small amount on a test area, and monitor over a 24-hour period.

Topical creams and serums

- anti-aging medicine for the skin™

5% Alpha Lipoic Acid Complex (Advanced Rejuvenation)

Facial repairing cream

Contains 5% alpha lipoic acid complex
-with Lipomal™

- Reverses wrinkles and fine lines
- Reduces puffiness around the eyes

5%-concentrated strength for non-sensitive skins

Clinical studies show that alpha lipoic acid reduces mild-to-moderate wrinkles by up to 50%, whereas fine lines almost disappear completely. In another study, alpha lipoic acid significantly improved the appearance of certain types of scars. Alpha lipoic acid also reduces oedema (puffiness) around the eyes. The appearance of the skin can take on a healthy glow after 3-4 days of use. After a few weeks, fine lines (wrinkles) should begin to diminish. Lipomal™ is a unique water-soluble form of alpha lipoic acid that improves skin penetration and delivery. Also available in a milder 3% strength (Super Rejuvenation) for more sensitive skins.

Directions For Use

Apply to the face in the morning or evening as a repair cream prior to your normal moisturising routine.

NOTE: Due to the high potency of this formulation, skin irritation may occur. It is recommended that first-time users apply a small amount on a test area, and monitor over a 24-hour period.

Topical creams and serums

- anti-aging medicine for the skin™

Anti-Aging Eye Lift Serum™

Reverses wrinkles, shrinks eye-bags and puffiness

-with Tetrapeptide-GHK™

- Reduces dark circles
- Repairs elasticity and firms skin

When the skin around the eyes loses its elasticity through aging it begins to sag, forming folds in the eye lids. These fill with fatty deposits and water, resulting in puffy eye-bags and dark circles. Anti-Aging Eye Lift Serum™ contains Tetrapeptide-GHK™ with copper and vitamin K liposomes which, after 2 weeks of use, reverse fat and water accumulation around the eye, shrink eye-bag puffiness and reverse dark circles. After 1-2 months of use, you will also notice improved skin elasticity, firmness and fewer wrinkles around the eye.

Directions For Use

Ensure that the face and eye area is properly washed and cleansed. Apply Anti-Aging Eye Lift Serum™ twice daily around the entire eye area, including the eyelid. Gently rub or pat the serum into the skin, for 1-2 minutes. Allow the serum to set for 10 minutes or longer, before applying eye shadow or other cosmetics.

Topical creams and serums

- anti-aging medicine for the skin™

C-Ester Serum™

Boosts collagen and new skin growth

Stabilised Vitamin C
-with Chromanol-6™

- Rejuvenates, restructures and strengthens
- Reduces pigmentation
- Helps protect skin-cells and DNA from damage

Vitamin C-ester stimulates skin-collagen synthesis. It rejuvenates, re-structures and strengthens the skin. Vitamin C-ester also promotes an even skin complexion and reduces skin pigmentation marks after 3 weeks of use. This formulation also contains Chromanol-6™, a unique dual-acting anti-oxidant that neutralises both types of skin damaging free-radicals, namely reactive oxygen and reactive nitrogen (other anti-oxidants typically neutralise only reactive oxygen). Chromanol-6™ therefore reduces age-accelerating skin damage caused by sunlight, pollution, cigarette smoke, alcohol and other toxins. Chromanol-6™ is formulated into liposomes for delivery deep into the skin, for effective cellular and DNA protection.

Directions For Use

Apply twice daily to face, neck and around the eyes, after cleansing.

Topical creams and serums

- anti-aging medicine for the skin™

DMAE deep moisturising anti-oxidant complex (True Nourishment)

Reduces skin sagging and improves firmness

- Evens skin tone and removes age spots
- Reduces fine lines and wrinkles

DMAE significantly improves the appearance of sagging skin and exerts a skin firming effect. DMAE evens skin tone and reduces age and liver spots. DMAE can plump up lips that are too thin or are showing signs of fine lines and wrinkles.

Directions For Use

Apply to the face and neck (and lips if required), morning and evening, as a repairing moisturising cream.

Topical creams and serums

- anti-aging medicine for the skin™

Idebenone Wrinkle Reverser™

Reverses wrinkles and fine lines

-with SpinTrap™ and Vitamin C

- Energises dull and lifeless skin
- Anti-oxidant skin detoxifier

Idebenone and vitamin C are anti-oxidants that detoxify and improve skin health. Idebenone has additional wrinkle reversing effects while SpinTrap™ (NtBHA) energises the skin and reduces new wrinkle formation.

Directions For Use

Apply to the face and around the eyes once or twice daily.

Topical creams and serums

- anti-aging medicine for the skin™

Mature Skin Rejuvenator™

Restructuring skin-hormones for women over 45

- Reverses wrinkles, strengthens and restructures skin
- Promotes youthful new skin growth

Mature Skin Rejuvenator™ contains 3 natural anti-aging skin hormones: estradiol, estriol, and progesterone. These have powerful anti-aging and skin renewal effects in mature skins. Studies show improvement in skin thickness and tone, as well as a reduction in wrinkles. Skin hormones also stimulate collagen production to maintain a youthful skin structure and prevent sagging.

Directions For Use

Apply to the face and around the eye area once or twice daily. The concentrations of the hormones in this cream are too low to be systemically absorbed and they have a surface skin effect only. Studies have shown there is no change to systemic hormone levels when applying the concentration of hormones used in Mature Skin Rejuvenator™.

Topical creams and serums

- anti-aging medicine for the skin™

Peptide Anti-Aging Body Complex™

- Nourishes
- Hydrates
- Rejuvenates
- Protects

-with

- Glyco-peptides to rejuvenate and protect
- Jojoba and Moringa seed oils, to nourish and hydrate

Peptide Anti-Aging Body Complex™ is a non-greasy, highly moisturising body cream, with anti-aging skin restructuring glyco-peptides, extracted from mushroom. These glyco-peptides rejuvenate the skin and help protect the skin's structural proteins from age-accelerating oxidation and damage. Peptide Anti-Aging Body Complex™ also contains Jojoba and Moringa seed oils, which are rich in essential fatty acids, to nourish and hydrate tired, dry or aged skin.

Directions For Use

Apply daily, or as frequently as desired, to the hands and body.

Topical creams and serums

- anti-aging medicine for the skin™

Peptide Anti-Wrinkle and Repair Complex™

Regenerative collagen booster

-with patented anti-aging peptides

SOLAL
TECHNOLOGIES'
FLAGSHIP
AND MOST
IMPORTANT ANTI-
AGING CREAM

- Reverses wrinkles
- Boosts collagen and firms
- Regenerates and hydrates
- Evens skin tone

Peptide Anti-Wrinkle and Repair Complex™ is a scientifically researched skin rejuvenating dermaceutical complex. It contains patented peptides, proven to reverse skin aging. Peptide Anti-Wrinkle and Repair Complex™ offers much more than a superficial cosmetic effect, because it reverses the underlying causes of skin aging, regenerating the structural skin collagen-matrix, resulting in a truly more youthful and healthier skin. Peptide Anti-Wrinkle and Repair Complex™ reverses wrinkles, fine lines and sagging, by boosting new collagen and elastin growth. It also evens skin tone, hydrates and strengthens the skin. Peptide Anti-Wrinkle and Repair Complex™ is more than a cosmetic: it is regenerative anti-aging medicine for the skin.

Directions For Use

Apply to the face, neck and around the eyes twice daily after cleansing.

Topical creams and serums

- anti-aging medicine for the skin™

Wrinkle Eraser™

Conceals and reduces the appearance of wrinkles

-with silica and boron minerals

CROW'S FEET

SMILE LINES

Wrinkle Eraser™ contains silica and boron to improve skin strength and smoothness. It also contains colloidal silica that hydrates wrinkle lines, lubricates, and softens the skin. Wrinkle visibility is reduced after 1 application and lasts for several hours. Wrinkle Eraser™ gives the skin a satin-like appearance because it contains silica and boron minerals which provide strength and structure to the skin.

Directions For Use

Apply Wrinkle Eraser™ after all other facial creams. Wait 5 minutes before applying Wrinkle Eraser™ to wrinkles, once or twice daily, or as needed. Then apply other make-up if desired.

Quality Assurance

SOLAL Technologies is a preventive medicine nutraceutical company that is also registered as a pharmaceutical company with the South African Pharmacy Council (SAPC) and the Department of Health (DOH). SOLAL Technologies' products are manufactured using effective doses of the highest quality pharmaceutical grade nutraceuticals and bio-identical hormones, sourced from the world's best and most trusted raw material suppliers. Every batch of raw material is tested for potency and contamination. All Dermaceutical oral supplements are manufactured under GMP (Good Manufacturing Practice) conditions. All topical creams and serums are pharmacist made and are individually formulated in SOLAL's Compounding Pharmacy Laboratory. All products are developed using the latest scientific evidence available.

Available from doctors, leading pharmacies, Dis-Chem pharmacies, health stores or from SOLAL Technologies.
