

# Breast cancer, brittle bones and menopause

Breast cancer is the most common cancer in women. 1 in 29 South African women get breast cancer each year.

**Breast Protection Formula™** – Formulated specifically for women to help protect the breasts.

**Breast Protection Formula™** contains **calcium-d-glucarate** and **broccoli extracts** which help the body excrete cancerous hormonal by-products from the contraceptive pill or Hormone Replacement Therapy (HRT), as well as environmental toxins, chemicals in the plastics that line the inner-surface of tinned food and are contained in some plastic bottles. **EGCG**, from green tea, helps protect cellular DNA from mutations. **Selenium** (natural form), **co-enzyme Q<sub>10</sub>** and **vitamin D<sub>3</sub>** protect immune function, and low levels of these are associated with an increased incidence of cancer. **TMG** (trimethylglycine) and **folic acid** may help the liver destroy environmental and hormonal carcinogens.

**Take 1 capsule twice daily of Breast Protection Formula™** if any one of these apply to you:

- Breast cancer runs in the family
- You drink more than one alcoholic beverage daily, or occasionally binge drink
- You are taking oral contraceptives, or have done so in the past 5 years
- If you are on HRT
- You eat tinned or canned foods.

Your risk of death is greater after a hip fracture than if you have breast cancer. 20 - 30% of women develop osteoporosis (brittle bones), and 1 in 3 women over the age of 50 will experience bone fractures.

**Bio-CalMag™** – highly absorbable glycinate forms of calcium and magnesium, with added boron and vitamin D<sub>3</sub> for absorption.

Calcium and magnesium are essential for strong bones. However, a study published in July 2010 in the *British Medical Journal*, and earlier research, shows that **too much calcium in the arteries, instead of in the bones (where it is supposed to be), can result in calcium build-up inside the blood vessels. This can lead to hardened and narrowed arteries, resulting in strokes or heart attacks.** **Bio-CalMag™** contains boron and vitamin D<sub>3</sub> to help keep calcium where it belongs, in the bones, not the arteries. **Bio-CalMag™** contains one of the most absorbable forms of calcium and magnesium, known as calcium glycinate and magnesium glycinate, not the less absorbable carbonate forms, found most other products. **Bio-CalMag™** also contains the optimal 2:1 ratio of calcium to magnesium. Women who are most likely to be deficient in calcium or magnesium, and therefore need to supplement with **Bio-CalMag™**, are those who don't regularly consume dairy (calcium) and nuts (magnesium), vegetarians, menopausal women and women who have fewer number of periods than normal.

**Take 2 tablets twice daily after meals.**

75% of women experience symptoms of menopause. Conventional oral HRT can increase the risk of blood clots and breast cancer.

**Hormone Balance Natural HRT** – a hormone-free, pure herbal alternative for the symptoms of menopause.

**Menopause occurs between the ages of 45 and 55, and the average age of menopause onset is 51.** Menopause is the time in a woman's life when the ovaries cease to produce an egg cell every four weeks and therefore menstruation ceases. Symptoms may include **hot flashes, night sweats, insomnia, depression, water retention, vaginal dryness and reduced sex drive.**

**Take 1 capsule twice daily.**

The information presented above is the opinion of SOLAL Technologies.

Manufactured in a GMP (Good Manufacturing Practice) licensed facility, ensuring pure, safe and uncontaminated products of the highest quality. All our raw materials are tested for potency and purity. Our products do not contain any unhealthy or bulky fillers, but, rather are filled to the brim with therapeutic doses of active nutrients and plant extracts.

Available from Dis-Chem Pharmacies, Leading Pharmacies, Health Stores, doctors or from SOLAL Technologies.

Visit SOLAL Technologies website for free downloads, comprehensive product information, booklet guide and chart, price list and to watch a free online video on how to use nutraceutical supplements safely and effectively.
