

Alpha Lipoic Acid (Dual R-form)

WARNING:

If your capsules don't look like this they're not as effective as Alpha Lipoic Acid (Dual R-Form)

One of the most important anti-aging nutrients known.

Alpha Lipoic Acid (Dual R-form)

One capsule of *Alpha Lipoic Acid (Dual R-form)* provides more than double the biological activity than other brands

- Improves blood sugar control, promotes fat-loss, protects the heart, slows brain aging, boosts energy and reduces age-accelerating damage caused by sugar to the body's cells.
- Improves skin condition and slows down wrinkle formation.
- Has both fat soluble and water soluble antioxidant properties (a universal antioxidant).

Why are the R-forms so important?

There are 2 types of alpha-lipoic acid: **The R-forms of alpha-lipoic acid are more than twice as effective as the S-form, and have unique benefits that the S-form does not have.**

R and R-dihydro Alpha Lipoic Acid forms are immediately available to the cells of the body. These active "R" forms can regenerate the oxidised and exhausted forms of other anti-oxidants by recycling spent co-enzyme Q10, vitamin C, vitamin E, and glutathione, back into their active states.

SOLAL Technologies is the **only** brand of pure R-form Alpha Lipoic Acid in South Africa, and is the only brand that contains both effective R forms: R-alpha lipoic acid and R-dihydro-alpha lipoic acid.
